Clarksville Footwear, a Munro Shoe Company, is partnering with Clarksville Light & Water, City of Clarksville, and the Clarksville Regional Economic Development Organization to announce a production expansion at the Clarksville Footwear facility in Clarksville, Arkansas. Founded in 1972, Munro Shoe Company operates two facilities in Arkansas. The Clarksville Footwear facility and the corporate office/distribution center in Hot Springs.

Clarksville Footwear will add approximately 25 new positions to the Clarksville facility. John Lester, General Manager of Clarksville Water & Light Company, signed an agreement with Munro Shoe to connect the Clarksville gigabit fiber network to the production facility and provide a third-party energy audit to assist Munro Shoe to identify energy efficiencies for the Clarksville facility.

The Office of Skills Development with the Arkansas Department of Career Education team is working with Munro Shoe to provide workforce training resources to the new positions.

Clarksville Light & Water General Manager John Lester was an integral part of bringing the resources together to support the business production expansion. "Clarksville Footwear is important to us and we are appreciative of the jobs and benefits Munro Shoe company provides to our citizens."
